Practice in Units Information XSE041-Practice	x			
Sistemas avanzados de recuperación de la información				x
Statistic methods	x	x		

¹ If you would like choose over these subjects – harmonize with your home curriculum - look for Agnes Hajdu Barát and we try to find any solution. The French and Spanish courses are taken by Enikő Pajor and the English ones are taken by Agnes Hajdu Barát.

* offering for the first semester. Students can choose from all only in the second semester.

Specification in the first semester in 2012:

As I said you would like to choose not only from the courses of first semester, but we offer these ones mainly. You should know these courses not really introduction, rather updated and particular for Hungarian practice. Therefore they are accepted everywhere.

My suggestion:

1. Consider your viewpoint and choose the offering courses for first semester
2. Discuss your interest and **decide collectively** (only according to the LIS courses), please

If you have already decided send me a common e-mail about your request, please.

Best wishes,
Agnes Hajdu
