

Call for Applications: International Doctoral Program in Energy Efficient Production and Logistics 2010

The **NRW Graduate School of Energy Efficient Production and Logistics** is calling for applications to its international doctoral program starting in fall of 2010. Outstanding academic records, strong theoretical foundations and a commitment to empirical research are expected.

Applicants may apply for a maximum of three of the announced dissertations topics, which can be found on the website **www.forschungsschule.de**. Core topic is the mathematic-physical description, analysis and optimization of industrial manufacturing processes under energy efficiency and CO₂ reduction aspects. The research proposals are related to the following fields:

- Logistics
- Production
- Materials Engineering
- Modeling and Holistic Analysis
- Energy Process Engineering

Deadline of application is **15 March 2011**. The selection process will be carried out in April and May the same year. Successful candidates will be informed by the beginning of June 2010. Doctoral researchers are awarded a scholarship of 1.400€/month for a maximum of 3 years.

The Graduate School of Energy Efficient Production and Logistics is a collaborative initiative of TU Dortmund University and Ruhr-University Bochum, funded by the Ministry of Education, Science and Research of the German State of North Rhine-Westphalia (NRW).
