

6-Month Web Testing Internship

LOWWT2703

PLEASE READ CAREFULLY BEFORE CONTINUING.

ESPA or European Student Placement Agency is a recruitment agency whose goal is to find high quality internships for European students in the UK. We work closely with our host companies to ensure the positions provide students with a great experience, both professional and personal.

REQUIREMENTS: ESPA vacancies are open to all EU passport holders able to travel to the UK for an educational work placement, without the need for visa documents. You have to still be a student or have graduated in the last 12 months. Any student who is unsure of their visa situation should check with their university before applying.

BENEFITS: ESPA is free for students. Accommodation, utility bills, TV Licence, Internet Access and UK commuter travel to the place of work will be paid for by the host company. This will be sourced and managed on your behalf by ESPA. **These benefits have an approximate value of 600-700€ per month, which is more than the average salary for an intern in most EU countries.**

There is no salary over and above the benefits offered, unless specifically stated.

To know more, please visit: www.espauk.com

The Host Company

This company, founded in 2002, is a fast-growing company through its award-winning ecommerce websites both nationally and internationally as a retailer, manufacturer and distributor in a lovely market.

Role

Reporting to the Quality Assurance Manager you will be involved in testing new development projects both on the front end web sites and to back end systems. You will be fully supported and mentored in this role.

Duration

6 months

Location

Bath. A world-heritage city in the South West of England which hosts two great universities. With a truly international feel it has wonderful cultural experiences and is just 1.5 hour train journey from London and a 15 minute train journey from the vibrant city of Bristol.

Languages

Fluent in written and spoken English

Start date

As soon as possible

Tasks

- Hands on manual testing of front and backend websites
- Cross functional browser testing
- Isolate, replicate, and report defects and verify defect fixes
- Defining test plans and test cases
- Assisting end users with UAT
- Creating automated regression test cases and reporting on results
- Leading the Quality Assurance process on specific projects

Personal Skills

- A keen eye for detail
- Ability to follow set processes efficiently
- Proven ability to deliver projects on time
- Project management skills
- Any technical experience in testing, along with experience of *jenkins / selenium / git* and *json* would stand you in good stead
- Knowledge of *Agile* development processes is a big bonus but not required
- Studies in field of Software Testing / Development

How to apply

STEP 1) Please, register with us at <http://www.espauk.com/students/register-with-us>

STEP 2) Please, send an email to madeline@espauk.com with the reference code LOWWT2703 attaching your CV as a pdf file. A cover letter is always helpful.
